Value for money stainless steel selection

All of our River Collection stainless steel sinks are manufactured from ss304 grade stainless steel to ensure durability and long life. River Collection sinks carry a lifetime warranty against material and manufacturing defects (domestic use only) and when properly maintained will look good for many years.

Mixer Taps

Our selection of taps complete the collection, with modern designs and a high quality chrome finish to complement the stainless steel River sinks. Our taps are tested to work with high and low pressure systems from 0.2 bar to 6.5 bar. All are supplied with flexi-tails and are fitted with flow aerator.
